Recipe TN

Thumbnail

Adding icons with labels represents rational UI

Avoid using inconsistent icons (from different pack). This makes your design look very immature.

Nav-bar

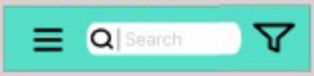
Use icons from one pack and play with saturation to make the selection pop up

Header-bar

put an empty textbox without explain what we should to write.

Nav-bar

Header-bar



Header-bar

Explain what text you should to write in box with less opacity.

Add

Add button

Avoid using robotic language,This hinders the ability to connect with product and creates Bad user experience

+ Add recipe

Add button

Using human-like connecting language creats GOOD user experience by letting people feel connected with product
